

Wired for Success: Increasing Demand and Electrification with Roy Palk

Justin Young 

Sr. Product Marketing Specialist, Constellation Clearsight

Justin Young is a seasoned marketing professional, currently serving as the Sr. Product Marketing Specialist at Constellation Clearsight. With over 9 years of experience in marketing, Justin plays a pivotal role in shaping the narrative around Clearsight's innovative inspection solutions and technologies.

In this article and our upcoming webinar:

- Learn more from industry veteran Roy Palk about the challenges faced by electric cooperatives due to the growing demand for electricity
- Understand current and future electrification challenges and how to craft an electrification plan that aligns with sustainable goals.

As industry leaders and decision-makers at electric cooperatives, you are acutely aware of the challenges presented by the ever-growing demand for electricity due to electrification. How can your cooperative adapt and thrive in this rapidly changing landscape? Join us for an insightful webinar that delves into the specific issues and strategies surrounding increasing demand and creating an electrification plan.

What is Increasing Demand and Electrification Planning?

Increasing demand and electrification planning is the strategic approach to addressing the rising energy needs while embracing the electrification wave. It involves understanding current and future challenges of ever-increasing electricity demands and crafting plans that align with sustainable electrification goals.

Join Us For Our Free Webinar

Dive deeper into this subject with me during a complimentary online webinar, where I will engage in a discussion with Roy Palk, a seasoned professional with nearly 50 years of experience as a former President and CEO of multiple electric cooperatives, as well as a former counsel to NRECA, bringing extensive knowledge of America's electric cooperatives. Roy has deep understanding of the challenges and opportunities increased electric demands create for cooperatives.

Whether you're an energy industry veteran, or just wanting to learn more, this free webinar is a great opportunity to learn about our grid's current and future challenges.

Key Webinar Highlights

- Our Grid's Transformation: Learn how the nation's grid has significantly changed over the years and what these changes mean for electric cooperatives.
- Navigating the Landscape of Increasing Demand: Explore the industry's challenges created by escalating energy demands and discover how cooperatives can adapt and develop innovative solutions.
- Strategic Electrification Planning: Learn from electric cooperative expert, Roy Palk, as he shares the key tools for establishing an effective electrification plan for cooperatives.
