

Justin Young

Sr. Product Marketing Specialist, Constellation ClearSight

Justin Young is a seasoned marketing professional, currently serving as the Sr. Product Marketing Specialist at Constellation ClearSight. With over 9 years of experience in marketing, Justin plays a pivotal role in shaping the narrative around ClearSight's innovative inspection solutions and technologies.

We're thrilled to announce that our highly anticipated webinar, "Wired for Success: Challenges and Opportunities of Increasing Demand and Electrification with Roy Palk," is now available on-demand! This free webinar offers a deep dive into the dynamic landscape of increasing demand and strategic electrification planning.

Image Alt Text: Preview of ClearSight's exclusive webinar, "Wired for Success with Roy Palk. Caption: Join Justin Young, Sr. Product Marketing Specialist at ClearSight, and industry veteran Roy Palk as they impart insights on the transformation of our nation's grid, how to navigate challenges posed by rising energy demands, and share the importance of establishing strategic electrification planning for cooperatives.

What’s Inside the Webinar?

With almost 50 years of industry experience, and as a former President and CEO for several electric cooperatives and former counsel to NRECA, Roy Palk brings a wealth of experience and knowledge to the table. Here’s a glimpse into some of Roy’s insights:

- **Our Grid’s Transformation:** Learn how the nation’s grid has significantly changed over the years and what these changes mean for electric cooperatives.
- **Navigating the Landscape of Increasing Demand:** Explore the industry’s challenges created by escalating energy demands and discover how cooperatives can adapt and develop innovative solutions.
- **Strategic Electrification Planning:** Learn from our expert consultant, Roy Palk, as he shares the key tools for establishing an effective electrification plan for cooperatives.

Why Attend?

Whether you’re the manager of an electric cooperative, in the energy sector, or someone eager to learn about the future of electrification, this webinar is tailored to provide you with valuable information:

- **Actionable Insights:** Each segment of the webinar is packed with practical advice and steps you can immediately apply.
- **Best Practices and Knowledge:** Stay ahead of the curve in your operations by learning about the latest trends, tools, and strategies in increasing demand and electrification planning.

How to Access?

Accessing the webinar is as easy as clicking a button! Simply register here for free and start your journey toward understanding the future of energy.
